SUMMARY

I am a self taught computer with a passion for functional programming. My goal is to make a career in the tech industry working as a software engineer.

SKILLS

- **Programming Languages:** Haskell, Nix, SQL, Java, Clojure, Ruby, Python, JavaScript, HTML, CSS
- **Web Frameworks:** Yesod(Haskell), Django(Python)
- **Operating System:** Nixos
- **Package Manager:** Nix
- **Development Environment:** Emacs Text Editor
- **Databases:** PostgreSQL, SQLite

EDUCATION

Self taught computer programmer

Certifications:

- Certifications:
- Currently working on the Free-Code-Camp certifications: <https://www.freecodecamp.org/>
- Cisco Certified Network Associate(CCNA)

EXPERIENCE

National Security Technology, Los Alamos, NM (2015-2016)

Web Developer

I did coding using C#, HTML, CSS, JavaScript, and MySQL, built a front-end(HTML, CSS, JavaScript) to input data through Microsoft Excel, then using C# I backed it onto a MySQL database to store the data for retrieval and analysis.

Open Source Projects

- Personal Projects: https://gitlab.com/zeta_/coding-projects
- Haskell GHC Compiler: <https://gitlab.haskell.org/ghc/ghc/issues/17492>
